

Cleaner Lisabril™

Pleasantly scented

Neutral cleaner

Suitable for use on
wood, plastic flooring
and other hard floors

Ideal maintenance for
sports hall

PRODUCT DESCRIPTION

- **Blanchon Cleaner Lisabril™** is the perfect accompaniment to metallised finishes found on wood floors. It is easy to use, without special equipment.
- Cleans, protects and shines varnished/lacquered wood floors subject to heavy traffic.
- **Blanchon Cleaner Lisabril™** is a powerful detergent combined with a polyethylene wax emulsion. The combination means it cleans the floor and simultaneously gives it a beautiful finish in a single application (use on varnished/lacquered wood floors, plastic flooring and hard floors such as marble, tiled floors, limestone, etc.).
- **Blanchon Cleaner Lisabril™** is a white, lightly-scented liquid.

SURFACE PREPARATION

Wood floors

- **Blanchon Cleaner Lisabril™** may only be used on varnished wood floors treated with a metallised polish.

Plastic flooring

- The best results are obtained when the floor has been treated with a metallised polish.

Hard floors

- Apply directly with a damp mop. For best results, use a buffing machine.

DIRECTIONS FOR USE

- **Cleaner Lisabril™** is a concentrated, powerful cleaner that should be diluted before use. Dilute 1 or 2 glasses of the product in 10 litres of water. Greater concentrations do not give extra effectiveness.

Wood floors

- Damp mopping: apply the cleaner with a sponge mop, a dust mop (Faubert), a floor cloth or gauze cloth. For maximum surface coverage, apply with a damp gauze cloth mounted on a trapezoid brush.

Plastic flooring or hard floors

- Apply the diluted cleaner with an applicator mop or a floor cloth and do not rinse.
- Polish the dry or damp surface with a buffing machine fitted with a beige or white pad to give the floor a beautiful shine. The protection becomes truly effective after 4 or 5 applications.

Cleaning of tools

- Rinse thoroughly with water immediately after use.
- Protect the environment:
 - Wring the tools properly and wipe them dry immediately after use.
 - Wash them in a dish with a small amount of water. Leave the used water to evaporate.
 - The accumulated dry sediments can be disposed of with trash.
 - Tightly close the container after use.
 - Return the empty container for recycling.
 - Please contact the local authorities for information on the collection and disposal of wastes.
 - Do not pour liquid wastes into sewer systems.

Blanchon

COVERAGE

- 1 or 2 glasses (50 to 100 ml) to 10 litres of water.

MAINTENANCE

- **Cleaner Lisabril™** can be applied over itself for maintenance and refinishing.
- Everyday cleaning: use a vacuum cleaner, broom or lambs wool cloth. From time to time, clean with a damp mop or floor cloth - never use soaked equipment.
- Occasionally apply a thin coat of Blanchon Protector for a perfect finish.
NB: **Cleaner Lisabril™** can also be sprayed onto the floor. Dilute it (diluted at 20% with water) and use a buffing machine fitted with a red pad.

TECHNICAL DATA

USE	Maintenance of varnished wood floors treated with a metallised polish
RESIN TYPE	Acrylic
WAX TYPE	Polyethylene
AFNOR CLASSIFICATION	Family 1, Class 7b2
DENSITY	0.99 to 1 (at 20°C, as per NF T 30020)
FLUIDITY	30 seconds (ISO Cup n°2.5 at 20°C)
REGULATORY INFORMATION	Refer to the relevant Material Safety Data Sheets (also available on www.blanchon.com or www.quickfds.com)
pH	7,5
FRAGRANCE	Floral note
TABER ABRASION RESISTANCE	N/A
IMPACT RESISTANCE	N/A
SCRATCH RESISTANCE	N/A
RESISTANCE TO HOUSEHOLD PRODUCTS	N/A
STORAGE	Protect from frost (be careful of storing in vehicles)
